# Ronny Krippner

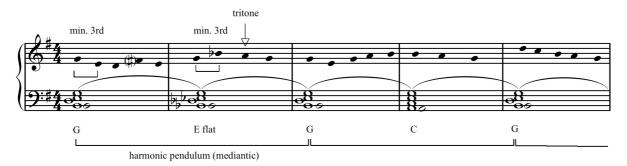

# Improvising in the style of Herbert Howells - a student's guide

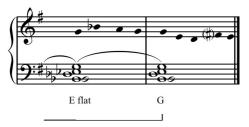

#### 1. Herbert Howells's style:

- H.H. rhapsodized on a single theme and the form was governed by melodic ideas and the moods
- "complex moods"
- 'remoteness'
- impressionistic harmony (modal, pentatonic, inversion of chords, plagal cad.)
- 2. First steps: The ARCHFORM

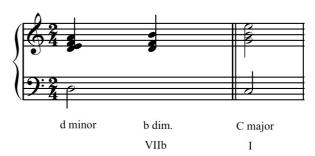

BACKGROUND → FOREGROUND → EPILOGUE (soft) (loud) (dying away)

Model: 'Like as the Hart' **Background** (on G): *piano* 

#### Linking bar: VIIb -I

**FOREGROUND** (on C): *forte* 

# **EPILOGUE** (on E): dying away

use Background scheme.

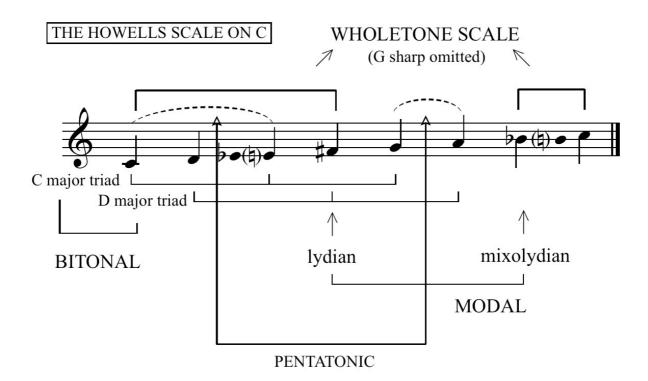

#### **CODA** (on E): 'last chord embellishment'

Pedal: Howells Scale on E

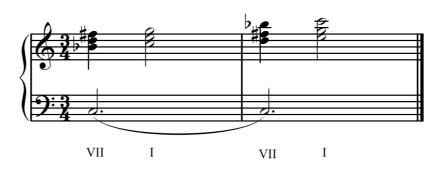

#### 3. The Howells Scale

What is it? A major scale with a raised 4th and flattened 7th.

# 4. Howells's Signature Chords

# 4.a. Augmented Triad

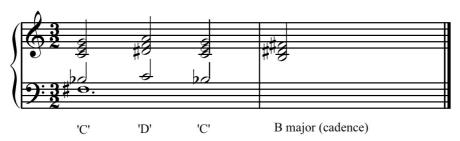

# 4.b. Augmented Eleventh Chord

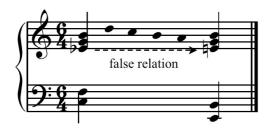

C major triad

Aug. Eleventh Chord in 5th inversion:

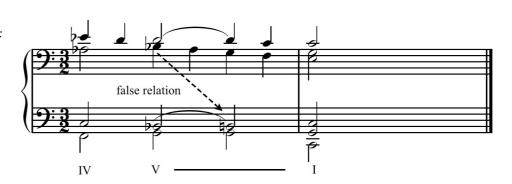

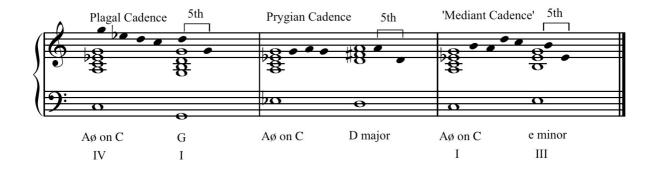

# 4.c. Eleventh Chord (non-augmented)

- 5. Cadences
- 5.a. Howells's English Cadence:

#### 6. Motifs

#### 7. Practical tips

- think in "tonal centres" they should ideally be in thirds apart (d minor b flat minor)
- therefore, long held pedal notes are desirable
- if stuck, use this as a back up:
